

**IN THE CLAIMS**

Please amend claims 11-12 and 14-15 as follows:

---

11. (Twice Amended) A pharmaceutical composition which comprises:

- B2
- (iv) an effective amount of a compound having a six-membered heterocyclic ring with a single nitrogen heteroatom, which has an N-linked ketone, diketo, or thioketo substituent attached to the heterocyclic ring, and which is additionally substituted with an ester or amide substituent attached to the heterocyclic ring, provided that said ester or amide substituent is not an N-oxide of an ester or amide for treating alopecia or promoting hair growth in an animal in need thereof;
  - (v) a second hair revitalizing agent; and
  - (vi) a pharmaceutically acceptable carrier.

12. (Amended) The pharmacological composition of claim 11, wherein the compound has an affinity for an FKBP-type immunophilin.

---

B3

14. (Amended) The pharmacological composition of claim 11, wherein the compound is immunosuppressive.

15. (Amended) The pharmacological composition of claim 11, wherein the compound is non-immunosuppressive.
